

Global Gardens

Hazel Class Year 3/4 Autumn 1 2016

For homework this half term the children will be focusing on spellings and key number work.

The specialist PE lessons for this half term will be: Football

SUCCESSFUL LEARNERS

Areas of Learning

As Geographers we will explore the different terrains around the world focusing on the different areas in which plants and animals survive. We will look at the weather conditions in these areas and find out how animals adapt to their habitat.

As Scientists we will be looking at food and nutrition. Whilst doing this we will explore the different food chains around the globe and explore the different habitats animals live in. We will look at how the teeth of animals adapt according to their diet.

As Explorers we will be hoping to get outside more and develop our allotment area. We will be thinking about how we can use more local produce as we approach the Harvest Festival. We will also be exploring our own wildlife using our woodland area.

As Writers we will be focusing on building and extending sentences by working on lots of descriptive work using our global gardens as stimulus.

As Mathematicians we are focusing on number work. We will be solidifying number bonds, place value, times tables and moving onto standard written methods.
