Let's Imagine

In literacy we will be focussing on our fine motor skills and handwriting. We will be looking at how we write a proper sentence. We will also be looking at different dragon stories, thinking about adjectives to describe different characters.
In maths we are learning about number. We will be looking at the numbers deepening our knowledge on the number system. We will be looking at addition and subtraction and number pairs to 10/20.

Areas of Learning

Our topic this half term is Let's Imagine. We will be focussing our learning around Castles and fairy tales.
In History we will be looking at the Battle of Hastings, learning about what happened and why. We will also be looking at traditional armour and castles.
As Scientists we will be investigating different materials. We will also be thinking about ourselves and what we need to keep fit and healthy.
As Artists and designers we will be making castles, bridges and dragon collages out of different materials.
In PE we will be doing multi skills and football.
In RE we will thinking about why we care, linking this to different religions and harvest festival.
In computing we are learning about audio books. Thinking about sound FX and how to create them.
In music we will be exploring different sounds relating this to our creative curriculum. We will also be learning songs for our harvest festival service.
We will be maintaining and getting to know our outdoor area a little better this half term. We will discuss seasonal changes and see what happens to our outdoor area during the different seasons.
