

Toys and Technology

Please don't forget to keep checking our twitter feed for up to date news about school and what's going on in class!

@cherry_class1

Our focus this half term for Creative Curriculum is India. We will be learning about food, culture, music, dancing, and art. In forest school we will be focussing on fire safety.

Towards the end of the term we will be focussing on Christmas activities.

Areas of Learning

Our topic this half term is Lets Play! We will be focussing our learning on toys past and present. In literacy we will be reading a collection of stories by Nick Butterworth based around Percy the Park keeper and friends.

In maths we will continue to deepen our knowledge on the number system and we will move onto looking at 2D and 3D shapes.

As Historians we will be looking and playing with old toys. We will compare old toys to toys we have today and learn about how they work and what they do. We will also see how technology has changed throughout the years.

As Scientists we will be investigating seasonal changes. We will be thinking about the seasons, months and weather and how these differ throughout the year.

In computing we will continue to learn about online safety. We will also think about how we can use technology to celebration cards and greetings.

As designers we will be looking at pop up art and books. We will have a go at making our own pop up and moving art!

In PE we will be doing dance with a specialist teacher. We will also use these skills to choreograph our own routine for our part in the school nativity.

In RE we will be looking at celebrations such as Diwali and Christmas. We will compare different traditions looking at similarities and differences.
